

# Video Platform for SharePoint and Office 365

MediaPlatform is an enterprise YouTube enabling interactive live streaming and VOD for internal communications, e-learning and collaboration. The MediaPlatform integrations for Microsoft SharePoint and Office 365 transform the solutions into engaging portals for viewing All-Hands webcasts, delivering training and powering employee collaboration.

## Corporate Communications

With MediaPlatform live streaming, organizations can distribute webcasts to offices around the globe. Users can easily create dedicated pages and display content on selected departmental portals. Employees can upload and create channels or playlists.

## Divisional Media and Video Portal

MediaPlatform serves as a central repository for all corporate video assets. Large volumes of media in any format can be easily migrated from existing locations and managed inside SharePoint.

## Team Sites

Store assets for a single team site inside MediaPlatform. Team members can upload, share, discuss and communicate. Team members can upload videos and create channels using or add media directly to any page.

# Video Delivery and Management Inside SharePoint

### Video Delivery

MediaPlatform distribution technology enables live streaming to any user, anywhere. Multiple video formats are transcoded to support all mobile devices and superb video playback quality is guaranteed using Adaptive bitrate streaming (ABR). MediaPlatform supports HDS and HLS for live.

### Enterprise Grade Security

Single sign-on integration with internal and external authentication systems. Control which employees can upload or create content, visibility of channels and reports. Configurable workflows can be created to require approval from an Administrator before a video asset can be published.

## About MediaPlatform

MediaPlatform is the leading enterprise YouTube enabling large-scale live streaming and on-demand video for executive messaging, e-learning, and collaboration. MediaPlatform provides a comprehensive set of products and services to help organizations leverage the power of video to improve employee engagement, knowledge sharing and enhance productivity.
